Experience

Devs Street

Devs Street is a student run community, which helps you to connect with the professionals and giving you the right guidance and help by providing workshops and other opportunities.

Event Hosting team

JAN 2021 - JUN 2021

I took care of a lot of workshops being a speaker as well as being a host. I managed all the collaborations, marketing and other aspects of the event.

Operations Lead

JUN 2021 - Current

Seeing my great performance in the community works i was promoted as the main lead. I carried forwarded the endeavors and the community is still holding up strong. .

CodeChef

CP HEAD

Sept 2021 - Present

I am the main lead for the competitive coding doamin for the codechef club of SRM-RMP, Since i am really great with coding i got this woderful opportunity where i teach my juniors the complex topics of DSA with ease. We participate in challenges and grow together.

White Hat Heroes

Web Developer

Feb 2022 - Present

Projects

PdfMerger

- This is basically a small tool, which can be used to merge several pdfs into single pdf.
- It also has a drag and drop functionality.
- Made using React, Express and mongoose.

Movie Finder

This project is similar to IMDB, It tells you about all the movies and their ratings in small and concise manner.

Workshop

MozoHack Hackathon :

- A 48 hours hackathon organized by SRM-KTR. This was my first time participating in any hackathon.
- We made a project called YoLearn :
- This website is best for absolute beginners who are struggling to find good resources to get started with their coding journey. On our website you can simultaneously learn by reading and coding.

Unfold Hackathon :

- This was a 72-hour long hackathon organized by coinDCX and Devfolio.Held on August 26, 27, and 28, Unfold 2022 saw industry leaders, entrepreneurs, and influencers shaping the future of Web3 share knowledge and exchange ideas on Building and scaling for the next billion, Web3 investing, and emerging models in crypto innovation.
- Being the only team from our college to get accepted for this event. We made our very first web3 decentralized app known as tokenTribe.
